

What we heard at Futurebuild, dishwasher milestone, new products and YouTube debut – all at your fingertips

Welcome to the March edition of the ETL Newsletter! This month, we're thrilled to bring you exciting updates and insights into our latest endeavours, and events on our horizon. Get ready for the launch of our new YouTube channel, the inclusion of the first professional dishwashers to the ETL, and four new refrigerated display cabinets.

Dive into our brand-new videos designed to cater to both purchasers and manufacturers, offering guidance on navigating our product search function and unlocking the full potential of ETL. Don't forget to subscribe to our [YouTube channel](#) for future updates and exclusive content.

Also join us as we reflect on our time at [Futurebuild 2024](#), where we engaged with industry professionals, manufacturers, and purchasers to drive sustainable practices forward on the UK's journey to net zero. Hear firsthand from our team on the ground.

This week we are attending the Hotel, Restaurant and Catering (HRC) event to explore the latest trends and innovations within the UK hospitality industry. Look out for our article next month where we will share insights from the ETL team and manufacturers at the event.

Read on for more exciting updates from the ETL team!

Introducing the ETL "How-To" Videos

Designed to streamline search and application processes, these videos offer guidance for both purchasers and manufacturers alike. From navigating the product search function to unlocking the ETL's full potential, we've got you covered.

Plus, don't forget to [subscribe to our YouTube channel](#) for future updates and insights.

First Professional Dishwashers listed on ETL

Hobart UK has just listed the first [Hood-Type Dishwashers](#) under the Professional Foodservice Equipment category. They said:

"As industry leaders with a reputation for innovation, Hobart is proud that our dishwashers will be the first of their type to gain ETL certification. This is testament to our expert teams who use ground-breaking technology to push the boundaries towards optimum efficiency, alongside a customer innovation programme that ensures that Hobart dishwashers are designed to make kitchen life easier."

Four new Refrigerated Display Cabinets added

Liebherr's first products on the ETL have been added within the [Refrigeration Equipment](#) category providing even more choice for purchasers. This is what they had to say:

"One of Liebherr's principal objectives is to offer the most energy-efficient products to our wide range of refrigeration market area. You can place your trust in our independently verified products, showcasing our unwavering commitment.

Our commitment has been recognised with a Gold rating for 2023 by the world-leading CSR rating agency, EcoVadis."
